History

- #1 - 12.06.2013 11:48 - Henning Blohm
- This problem is a follow up of the changes for [#1012](#). The process runner implementation, when embedding, does not run in the system class loader's context and so does not find the built-in jndi.properties configuration.
- Solution: Change process runner impl to at least lift its class loading context to its own level.
- #2 - 12.06.2013 11:59 - Henning Blohm
- Status changed from In Progress to Resolved
 - % Done changed from 0 to 100
- Applied in changeset [z2-core:16e68ca07842de1730345c33706365bb5e09ffe0](#).
- #3 - 15.06.2013 21:11 - Henning Blohm
- Status changed from Resolved to Closed
