

z2-Environment - Improvement #1451

Unify "Relaxed" settings for different Component Repositories

22.07.2013 10:04 - Udo Offermann

Status:	Resolved	Start date:	22.07.2013
Priority:	Normal	Due date:	
Assignee:	Henning Blohm	% Done:	100%
Category:	z2-core	Estimated time:	0.00 hour
Target version:	2.3		
origin:			
Description			
Relaxed mode for SVN is activated via System Property com.zfabrik.svncr.mode=relaxed while for git it is enabled per repository gitcr.optional=true			
There should be one global setting com.zfabrik.cr.mode=relaxed for all repositories			

History

#1 - 01.08.2013 15:51 - Henning Blohm

- Assignee deleted (Henning Blohm)

#2 - 01.08.2013 15:53 - Henning Blohm

- Tracker changed from Bug to Improvement

- Subject changed from Different "Relaxed" settings for different Component Repositories to Unify "Relaxed" settings for different Component Repositories

- Description updated

#3 - 09.03.2014 11:32 - Henning Blohm

- Assignee set to Henning Blohm

#4 - 09.03.2014 11:32 - Henning Blohm

- Target version changed from 14 to 2.3

#5 - 27.03.2014 13:40 - Henning Blohm

- Status changed from New to In Progress

Suggesting com.zfabrik.repo.mode with settings:

RELAXED: When set (case-independent), failure to remote connect will not stop repository operations but simply fail to discover updates. Attempts to access resources that have not been provided locally previously will still lead to errors

STRICT: When set (case-independent), failure to remote connect for update checks (if so required) will lead to exceptions thrown during repository operations and may render the system inoperational. This is the default setting and recommended for productive systems to ensure consistency.

#6 - 27.03.2014 16:32 - Henning Blohm

- Status changed from In Progress to Resolved

- % Done changed from 0 to 100
