

z2-Environment - Bug #1550

Eclipsoid timeout

10.11.2013 19:21 - Henning Blohm

Status:	Resolved	Start date:	10.11.2013
Priority:	Normal	Due date:

Target version:			
origin:			
Description When using eclipsoid text completion during editing of a z.properties file, it seems that no timeout ever applies, if the connection to the backend cannot be established.			

History

- Status changed from New to Resolved

Most probably an eclipse issue - see <http://stackoverflow.com/questions/2621081/eclipse-galileo-not-responding-ubuntu-64-bit>

At least the problem didn't occur any more after ~/.eclipse/org.eclipse.equinox.security/secure_storage was removed.

On Henning's machine the path ~/.eclipse/org.eclipse.equinox.security/secure_storage contained a recursive link pointing to itself again.
