

z2-Environment - Bug #1727

Eclipsoid libs not exported in eclipse

01.05.2014 16:54 - Henning Blohm

Status:	Resolved	Start date:	01.05.2014
Priority:	Normal	Due date:	
Assignee:	Henning Blohm	% Done:	0%
Category:	z2-base-tools-eclipsoid	Estimated time:	0.00 hour
Target version:	2.3		
origin:			
Description			
<p>I have observed several cases where an explicit "export" of the Eclipsoid class path container was needed to have workspace local refs between armed modules work.</p> <p>Here is one example (repos not available quite yet):</p> <ul style="list-style-type: none">• In a new workspace clone: z2-samples.jta-spring z2-base.core• import all projects• Start z2.• resolve with eclipsoid• In com.atomikos uncheck export of Eclipsoid• com.zfabrik.samples.jta-spring will have compilation problems (in Eclipse).			

History

#1 - 05.05.2014 21:40 - Udo Offermann

- Status changed from New to Resolved

- Assignee changed from Udo Offermann to Henning Blohm

JARs from z2-modules which are not available in the IDE are now added with is-public == true.
An upgraded version (2.3.0.201405051604-rel) is available at the [update site](#)
