

## z2-Environment - Bug #1945

### Wrong revision used when scanning components of new SVN branch

26.02.2016 21:55 - Henning Blohm

<b>Status:</b>	Resolved	<b>Start date:</b>	26.02.2016
<b>Priority:</b>	Normal	<b>Due date:</b>	
<b>Assignee:</b>	Henning Blohm	<b>% Done:</b>	100%
<b>Category:</b>	z2-core	<b>Estimated time:</b>	0.00 hour
<b>Target version:</b>	2.5		
<b>origin:</b>			
<b>Description</b>			
Again there is the problem that when copying to a branch the repo will have the right revision, but child modules will be looked up with a peg revision that is from before the copy so that the URL will not resolve.			
Test:			
1. create branch of addon 2. scan for contained modules
