

z2-Environment - Improvement #1964

Better handling of non-serializable server-side throwables in Z2UnitTestRunner

27.01.2017 10:28 - Henning Blohm

Status:	Resolved	Start date:	27.01.2017
Priority:	Normal	Due date:	
Assignee:	Henning Blohm	% Done:	0%
Category:	z2-base	Estimated time:	0.00 hour
Target version:	2.5		
origin:			
Description			
Currently, when running into a de-serialization failure upon handling exceptions that fail to de-serialize on the client, only a message is shown and the actual error text is lost.			
Suggestion:			
<ul style="list-style-type: none">• On server-side also add the StackTrace to the failure json• On the client, if de-serialization failed, add a wrapper exception with the original text.
