

z2-Environment - Improvement #1974

Support type reference parameter

18.06.2017 12:16 - Henning Blohm

Status:	Resolved	Start date:	18.06.2017
Priority:	Normal	Due date:

Target version:	2.7		
origin:			
Description			
Currently, IComponentsLookup as well as the corresponding Resource type support lookup by Class reference.			
In order to also support generic return types, such as for example Supplier<T> without the need to define new local interfaces, it is suggested to support some TypeRerefence<T> style parameter in addition.			
Compatibility constraints to be observed of course.
