

z2-Environment - Improvement #1984

Introduce API, Impl, Test specific compile order

04.10.2017 16:40 - Henning Blohm

Status:	Resolved	Start date:	04.10.2017

Target version:	2.6		
origin:			

Description

Currently, the applicable compile order can only be specified for the complete Java component.

Sometimes checking for compilation can already be expensive. To have a more specific compile order setting, it should be possible to specific compilation by part.

I.e. `java.compile.order` would still set a default, but `java.compile.order.api`, `java.compile.order.impl`, `java.compile.order.test` would override the part specific definition.

History

#1 - 03.06.2018 11:23 - Henning Blohm

- Status changed from *New* to *In Progress*

#2 - 03.06.2018 16:57 - Henning Blohm

- Status changed from *In Progress* to *To Be Documented*

Note that the properties are now named:

<code>java.publicCompile.order</code>
<code>java.privateCompile.order</code>
<code>java.testCompile.order</code>

#3 - 01.09.2018 21:39 - Henning Blohm

- Status changed from *To Be Documented* to *Resolved*

- % Done changed from 0 to 100

Applied in changeset `internal:internal-office|r2751`.
