

z2-Environment - Improvement #1998

Component Classloader to ignore *-sources.jar libraries

19.03.2018 17:18 - Henning Blohm

Status: Resolved	Start date: 19.03.2018
Priority: Normal	Due date:

Target version: 2.6	
origin:	
Description so that we do not run into the rare conflicts that occur when there is a resource in a source jar that conflicts with a resource in a runtime jar. Also, scanning those jars is expensive. The include pattern should default to all jars but *-sources.jar but be configurable with <code>java.{public private test}.librarypattern=... regex.</code>
