

z2-Environment - Improvement #2012

Upgrade built-in JTA to 1.2 and fix suspend behavior

17.06.2018 14:20 - Henning Blohm

Status:	Resolved	Start date:	17.06.2018
Priority:	Normal	Due date:	
Assignee:	Henning Blohm	% Done:	100%
Category:	z2-base	Estimated time:	0.00 hour
Target version:	2.6		
origin:			
Description			
<p>The version upgrade is required by later spring versions and as this does not seem to impose additional implementation changes on the non-XA support.</p> <p>On the updated behavior: Currently the JTA impl throws an exception upon a call to suspend, if no transaction is currently associated. However, the TransactionManager API (https://docs.oracle.com/javaee/7/api/javax/transaction/TransactionManager.html#suspend) demands that null is returned in that case.</p>			

History
