

z2-Environment - Bug #2040

ApplicationThreadpool does not suspend the current workunit when dispatching work to the calling thread

12.09.2019 18:07 - Henning Blohm

Status:	Resolved	Start date:	12.09.2019
Priority:	Urgent	Due date:	
Assignee:	Henning Blohm	% Done:	0%
Category:	z2-core	Estimated time:	0.00 hour
Target version:	2.8		
origin:			
Description			
This is critical, as an going WorkUnit, in particular when holding a transaction, would be visible to an arbitrary task of the submitted tasks.
