

z2-Environment - Improvement #2048

Add more TransactionUtil and ThreadUtil signatures for better exception handling

16.11.2019 15:12 - Henning Blohm

Status:	Resolved	Start date:	16.11.2019
Priority:	Normal	Due date:

Target version:	2.8		
origin:			
Description In many cases, wrapping execution for transaction boundary of clean thread context requires ugly handling of Callable exceptions. To some extend ThreadUtil.confine reduces noise, but more can be achieved for the most typical lambda use by introducing a ThrowingSupplier and ThrowingRunnable that have a generic and so inferrable exception use.
