

z2-Environment - Improvement #2052

Upgrade to Jetty 9.4.24

12.01.2020 19:43 - Henning Blohm

Status:	Resolved	Start date:	12.01.2020
Priority:	Normal	Due date:	
Assignee:	Henning Blohm	% Done:	0%
Category:	z2-base	Estimated time:	0.00 hour
Target version:	2.8		
origin:			
Description			
Due to Java 13 support and a new required ASM version, we might as well upgrade Jetty.			
Some configuration changes required:			
Default modules (start.ini, omitting the deploy and the ext module):			
<pre>--module=server --module=jsp --module=resources --module=jstl --module=websocket --module=http</pre>			
Analysis of dependencies means at least the following libs are required:			
<pre>lib/websocket/*.jar lib/jetty-client-\${jetty.version}.jar lib/jetty-annotations-\${jetty.version}.jar lib/annotations/*.jar lib/apache-jsp/*.jar lib/apache-jstl/*.jar lib/servlet-api-3.1.jar lib/jetty-schemas-3.1.jar lib/jetty-http-\${jetty.version}.jar lib/jetty-server-\${jetty.version}.jar lib/jetty-xml-\${jetty.version}.jar lib/jetty-util-\${jetty.version}.jar lib/jetty-io-\${jetty.version}.jar lib/jetty-webapp-\${jetty.version}.jar lib/jetty-servlet-\${jetty.version}.jar lib/jetty-security-\${jetty.version}.jar lib/jetty-plus-\${jetty.version}.jar lib/jetty-jndi-\${jetty.version}.jar lib/jndi/*.jar lib/mail/*.jar lib/transactions/*.jar</pre>			
and the following configurations are to be included or set:			
<pre>etc/jetty-webapp.xml etc/jetty-annotations.xml etc/jetty-http.xml etc/jetty.xml etc/jetty-bytebufferpool.xml etc/jetty-threadpool.xml etc/jetty-plus.xml</pre>
