

z2-Environment - Improvement #2115

Support jetty configuration property setting via Web Server component properties

15.10.2021 16:38 - Henning Blohm

Status:	Resolved	Start date:	15.10.2021
Priority:	Normal	Due date:	
Assignee:	Udo Offermann	% Done:	100%
Category:	z2-base	Estimated time:	0.00 hour
Target version:	2.9.1b		
origin:			

Description

Currently, in order to configure Jetty configuration properties for the embedded Jetty they must be specified as system properties.

This means we cannot effectively use dynamic component level properties to configure the web server settings.

Acceptance Criteria

- All Web server component properties that are prefixed with "jetty.property." are added to configuration evaluation (with removed prefix)
