z2-Environment - Improvement #2159

Log a warning when waiting for a connection due to full pool in PoolingDataSource

29.12.2023 15:59 - Henning Blohm

Status:	New		**Start date:**	29.12.2023
Priority:	Normal		**Due date:**	
Assignee:	Henning Blohm		**% Done:**	0%
Category:	z2-base		**Estimated time:**	0.00 hour
Target version:	2.10.1			
origin:				

Description

In case of connection leaking, it is rather hard to find that a) some thread is waiting for a connection and b) who is leaking.

Acceptance Criteria

- When waiting longer than 10s for a connection, log a warning with a call stack
- For JTA enlisted connections that are not used in a JTA context, warn and enlist to close and rollback in the workunit anyway.

History
