

## z2-Environment - Bug #2184

### Resource classes may be instantiated multiple times for a resource lookup

03.11.2024 14:46 - Henning Blohm

| In highly concurrent situations, the component resource wrapper may instantiate multiple resource instances for the same key.<br>That breaks our concurrency contract that allows multiple init calls - but at most one instance of a resource at a time. |               |                        |            |
