

z2-Environment - Improvement #2203

Enhance MVNCR to support custom classifiers

01.09.2025 14:41 - Henning Blohm

Status:	Resolved	Start date:	01.09.2025
Priority:	Normal	Due date:

Target version:	3.0		
origin:			
Description Currently we do not actually support specification of a classifier. Instead we use a gradle-lookalike but not actually compliant artifact naming scheme: <pre>groupId:artifactId:packaging:version</pre> Acceptance Criteria • We use the naming scheme<pre>groupId:artifactId:version:classifier@packaging</pre>where some parts may be omitted, namely version and classifier. • The packaging defaults to "jar", the classifier to null.
