

z2-Environment - Improvement #2206

Add Foundation Methods to detect whether we run as Home or as Embedded

21.03.2026 11:44 - Henning Blohm

Status:	New	Start date:	21.03.2026
Priority:	Normal	Due date:	
Assignee:	Henning Blohm	% Done:	0%
Category:	z2-core	Estimated time:	0.00 hour
Target version:	3.1		
origin:			
Description			
<p>Currently we can only safely determine that a current process is a worker process. We have however no means to detect wheter the current process is a home process as opposed to some other standalone or embedded use. This was relevant in command line tools in zf-work schema management.</p>			
Acceptance Criteria			
<ul style="list-style-type: none">• There is a isHome method on Foundation that returns whether the current process is a home process.
