<b>Description</b>			
Eclipsoid should support source-jars under bin/lib, bin.api/lib, so that 'xyz-src.jar' is treated as the source-container for jar 'xyz.jar'.

this feature is implemented in version 1.2.0:

Treat libs ending with '-src.jar', '-source.jar' and '-sources.jar' in java/bin.api and java/bin.impl as source archives. To provide the sources for a library 'x.jar' one simply puts them into a 'x-src.jar' and places this jar into the same directory.
