

z2-Environment - Bug #850

logger component resets file handlers

23.07.2012 17:23 - Udo Offermann

Status:	Closed	Start date:	
Priority:	Urgent	Due date:	
Assignee:	Henning Blohm	% Done:	0%
Category:	z2-core	Estimated time:	0.00 hour
Target version:			
origin:	trac		
Description			
which may lead to changing the concurrency order, so that all the sudden, worker nodes write into unexpected log files.			

History

#1 - 23.07.2012 17:23 - Udo Offermann

Updated by Henning Blohm on 21.03.2012 at 15:39:41

Introduced a node specific file logging handler that sets the node name as part of the log file name pattern.
