

z2-Environment - Bug #869

Java component usage not safe in concurrent home usage

23.07.2012 17:23 - Udo Offermann

Status:	Closed	Start date:	
Priority:	Normal	Due date:	
Assignee:	Henning Blohm	% Done:	0%
Category:	z2-core	Estimated time:	0.00 hour
Target version:	3.0		
origin:	trac		
Description			
Reason being that an invalidation of a dependency component may imply a re-build of a dependent component without implying a new revision. That is, the use of the dependent component is not safe as the rebuild may remove compilation results.
